3 DAY TRANSFORMATIONAL EVENT

## ***More Than Just A Workshop***

Author and teacher **Shavasti** (John L. Payne) will guide you to uncover a freedom that is innately yours. Each of us desires connection to our authentic and radiant self, as well as deeper connection to others—: friends, partners, family, nature and to life.

In working with several thousand family systems, Bert Hellinger uncovered what he describes as the age-old Orders of Love, which are deeply embedded in the unconscious of family groups.

Disturbances to the Orders of Love in previous generations will inevitably affect the lives of future generations. When these influences are understood, individual suffering is revealed in a whole new light – and so is healing. This work shows how love, even coming from a wounded and misguided place, can be transformed into a force for profound healing.
